use the "Guide to FOREIGN TRADE STATISTICS—1970"

Why delve through thousands of facts concerning foreign trade when there's a quick way to find the exact data you need in the "Guide to Foreign Trade Statistics — 1970." The foreign trade statistics program, conducted by the Bureau of the Census, involves the compilation and dissemination of a myriad of data relating to the imports and exports of the United States. These statistics are designed to serve the needs of both Government and non-Government users who have wide ranges of interests and hundreds of different reasons to require varied types of foreign trade data. The "Guide", therefore, includes the listings of data presented in many different arrangements and released in the form of reports available by subscription and in reports and machine tabulations, magnetic tapes, and punch cards offered for public reference use. Up-to-date reports and special tabulations listed show current plans for the release of foreign trade statistical data through 1970.
